## PROFILE

Hey, I'm Alexander Jonsson, a 31-year-old Front End Developer who loves design, creativity, and fitness. Always eager to learn and tackle new challenges, I excel at blending aesthetics with functionality in the digital world. Gym-goer, problem-solver, and your next go-to developer.

When I'm not coding or crafting user-friendly interfaces, I'm at the gym or diving into creative projects. I'm all about work-life balance. Searching for a witty, dedicated developer? Look no further – let's create some digital magic!

## SKILLS

- HTML & CSS
- JavaScript
- React
- TailwindCSS
